

Fantastic News! Cartier comes to Hammond and Dummer.

After two years of negotiation Claire Ranger is delighted that Hammond and Dummer has been approved to retail the exclusive range of Cartier frames and sunglasses. Cartier have approved only one hundred practices in the whole of the UK so this accolade supports Claire's tireless work in keeping the level of care and products in the vanguard of optical care.

Cartier eyewear is some of the best, if not the best, eyewear in the world. Its timeless style and fantastic quality has fashioned the icon. Comfort, style and longevity are the hall marks of fine eyewear and Cartier is at the pinnacle.

Cartier started work as a jeweller in Paris 150 years ago and his exquisite quality and workmanship propelled him to the heady title of 'Jeweller to the Kings'. The same philosophy of quality and customer care continues in the company today. Cartier only appoints agents that can understand, empathise and implement their unrivalled philosophy.

Frames can be made in gold and platinum with precious stones woven into the design. All other frames are coated in the highest quality gold and platinum, whilst the sunglasses are composed of the finest material available.

All of us at Hammond and Dummer are thrilled to be able to stock such a prestigious brand and we will be delighted to show you all our products should your care to come and browse in the practice.

For that extra-special look or gift please come to Hammond and Dummer and remember our glasses are exciting and different and not to be found anywhere within miles and miles.

Alternatively you can get a taste of the Cartier eyewear at:
